

FOREST FIRES RAGE
IN PENNSYLVANIANORTHERN PART OF THE STATE
SUFFERS SEVERELY.

Recent Hot Weather Puts the Forests in Good Condition For the Spread of the Flames—Five Lives Thought to Have Been Lost—Fight Made Against Flames.

Bradford, Pa., June 4.—Terrific forest fires are sweeping through northern Pennsylvania. The inhabitants of several towns have been forced to flee from their burning homes, and it is feared that many have perished. A vast amount of damage has been done. Many oil-well plants have been destroyed at various points.

Owing to the intense heat of the sun and the fury of the flames the fire fighters have a most difficult task on hand, and many are reported as prostrated from their exertions. The sky is black with smoke, and the outlook, if no rain falls soon, is far from reassuring.

In McKean and Elk counties in the oil and lumber regions the loss is heavy. Dispatches from Kane state that the woods on all sides of that place are in flames. Thirteen oil well rigs with tanks, boiler houses, etc., are destroyed in that vicinity, and the people of West Kane had a close call. They appealed to Kane for help and through the good work of the Kane fire department their homes and other property were saved from destruction.

Russell City, an oil town in Elk county, some miles beyond Kane, had a hot time and the flames ate up timber and oil property in a ruthless fashion. It is said that forty oil well rigs have been consumed in that vicinity. Telephone and telegraph wires are down in the burning district, and no further particulars are obtainable.

At Coon Run the homes of twenty-five families were destroyed, together with the greater part of their contents. Five men who lived in the town are missing, and it is feared that they perished in the flames. The fire is raging so fiercely that the men who are fighting the flames cannot get within a mile of the spot where the houses stood. The telegraph operator who sent this information was compelled to flee from his instrument as his office was burning.

A fierce fire is reported from Clark's Mills.

At Hunter Run the fire reported as under control has again broken out and is running through the forest in all directions.

At Brookston, Elk county, James Brothers' large saw-mill, together with a large stock of lumber in the yards, is destroyed, and south of Kane traffic on the Pittsburgh & Western railroad has been stopped on account of the flames that are rolling over the track.

W. S. Southard & Sons' saw-mill near Watsonville was destroyed, entailing a heavy loss.

Near Degallo the property of the Emery Oil Company was threatened, but a fire steamer from this city was taken to the scene, and the fire is now under control. The Bradford Oil Company, in the vicinity, lost three oil-well rigs.

Up in the Sugar Run district, west of Bradford, the woods are burning, and the smoke and flames give the mountains a volcanic appearance.

At Ormsby, east of this city, another fire is raging, and traffic on the Bradford, Bordell & Kinsus railroad has been abandoned.

The train from Smithport ran into a hot place in the vicinity of Ormsby and had to do some hustling to back out in time to avoid serious consequences. The train was run back to Smithport. At Knapp's creek fires are burning furiously, and much oil property has been lost.

At Chipmunk, between Knapps creek and Olean, it is reported that a large storage tank has caught fire. A force of men has been brought from Olean to battle with the flames. Between Knapps creek and Duke Center another fire is destroying property, and at Rutherford Run, a few miles east of Bradford, flames are eagerly devouring such property and timber as lie in their path.

A strong fight was made in that vicinity to keep the flames from burning a nitroglycerine factory containing 1,000 pounds of the powerful explosive.

All over the northern oil field and through the lumber woods the same general conditions prevail. The recent torrid weather has dried up the brush and leaves in the woods and sparks from the locomotives are quickly fanned into flames that run in all directions. It is impossible to estimate losses, but they will certainly approximate a large figure.

J. J. Campbell's saw-mill at Hunter Run, with about 1,000,000 feet of lumber, were destroyed and two oil-well rigs owned by the Emery Oil Company, at Dents, Pa., were burned.

Charged with Shocking Cruelty. Owego, Mich., June 4.—Mrs. Ursula Burpee was yesterday sued for \$10,000 damages on behalf of her stepson, Ira Burpee, who alleged that he lost both feet through her cruelty. Ira, who is 10 years old, charges that she filled his boots with boiling water and then stuffed his bare feet into them. Amputation of both was found necessary. Mrs. Burpee was tried on a criminal charge for the offense last fall but the jury disagreed.

Won't Let Negroes Vote. Columbia, S. C., June 4.—At a meeting in Edgefield yesterday State Senator R. B. Watson declared that while there were 4,000 white and 7,000 colored voters in the country, 100 determined white men could carry the election for whom they pleased, and that he would be the first to shoot any white man who attempted to lead the negroes to the polls.

Accept 51-Cent Rate. Akron, O., June 4.—Most of the 2,000 miners of Silver Creek, Doylestown and Wadsworth subdistricts, including Summit county, have returned to work at 51 cents. All will resume this week.

OLNEY SUCCEEDS GRESHAM.

Report from Washington That He Is to Be Secretary of State.

Chicago, June 4.—A dispatch from Washington to a morning paper says: "Richard Olney of Boston, at present attorney-general, will succeed Walter

RICHARD OLNEY.

Q. Gresham as secretary of state. The President yesterday sent for Attorney-General Olney and tendered to him the portfolio of the state department. Mr. Olney accepted the appointment. It is the purpose of the President to retain Assistant-Secretary Uhl in the position which he now occupies. No decision has been reached as to the successor of Mr. Olney as attorney-general."

SEARCHING FOR SURVIVORS.

Mexican Coast Being Scoured for Passengers of the Steamer Colima.

City of Mexico, June 4.—Rescuing parties are still in search of survivors of the Colima disaster. Land parties, mounted and afoot, are operating in the vicinity of Ixtlanuacan, Laraua, Zacatula and as far south as Nuevos, while the people all along the coast of Acapulco have been asked to patrol the beach. Not only are the sea and coast lines to be rigidly scoured, but other parties are operating on horseback as far as ten miles inland in hope of encountering survivors of the wreck who may have found shelter in some of the small villages. It is believed that a number of the passengers, mad from their terrible experience and keen bereavement, on reaching land wandered inland.

The steamer Mazatlan returned to Manzanillo from the wreck yesterday. May 31 she discovered a party of survivors on the beach from the second life raft and sent a boat to bring them off. It was capsized in the sea in the high surf. The men are supposed to have reached shore. The first raft survivors report seeing a woman's head, with long black hair, come ashore. The body had been cut off by floating wreckage or eaten by sharks. The steamers Romero, Rubisee and Barraouta are still searching for survivors. If any more are found they will be brought to Manzanillo or taken to Acapulco.

Watching for Filibusters.

Washington, June 4.—At the request of United States Minister Willis, the Hawaiian government has been investigating the cause of the delay of the letter asking for the recall of Minister Thurston. Recent reports from Hawaii received here show much activity in preparing for an expected filibustering expedition. The government has sent out the revenue cutter Lehu, with a Krupp gun aboard, to look for the filibusters.

Cyclone in Nebraska.

York, Neb., June 4.—A cyclone started twelve miles southeast of York at about 6:30 last night and for a distance of sixteen miles played havoc with farm houses, barns, corn cribs, windmills and other farm property, and doing an immense amount of damage. Its path varied in width from ten rods to a mile. No lives were lost, or any one seriously injured. A heavy rain followed the cyclone.

Will Fight in Texas.

New York, June 4.—The Fitzsimmons-Corbett fight will take place at Dallas, Tex. Joe Vendig, head of the Florida Athletic club, says he has a definite understanding with Dan Stewart, of Dallas, and all that is necessary now is for the boxers to get into shape for the struggle.

A BUNCH OF BRIEFS
FROM OVER THE SEASPANISH GOVERNMENT MAY
BE OVERTHROWN.

Officials Censured By the Chamber—Republican Party Determined to Tear Down the Ministry—A Serious Crisis—Japanese Land Troops in Formosa and Defeat the Chinese.

Madrid, June 4.—The chamber yesterday, by a majority of seventy-eight votes, adopted a motion censuring the government. The ministerial party refused to take part in the division. All the ministers quit the house before the vote was taken. The cabinet declines to resign because the ministers claim they accepted office on Senor Sagasta's promises that the opposition would support them in passing the budget. The situation is critical and the republicans government.

JAPANESE LAND INFORMO SA.

Three Hundred Chinese Killed in Battle at Kee Tung.

Hong Kong, June 4.—News has been received here that the Japanese have captured Kee Tung in the northern part of the island of Formosa. Three hundred Chinese were killed.

Yokohama, June 4.—A dispatch received here from the island of Formosa says that the Japanese imperial guard landed near Kee Tung on Wednesday and fighting ensued. The Chinese lost heavily.

Peruvian Coast Inundated.

Lima, Peru, June 4.—A tidal wave has occurred on the Northern Pacific coast of Peru, and the cable between Callao and Arica is broken. Much damage has occurred at Mollendo, which is also a cable station, and the terminus of a railway to Arequipa and Puno, and has an elegant railway station. Other reports are also reported as having sustained much damage from the tidal wave.

Christian Missions Destroyed.

Shanghai, June 4.—Intelligence has been received here that between May 29 and May 31 the French, Catholic and English and American missionary property at Ching Too, capital of the province of Szechuen, Western China, was destroyed by rioters. The missionaries are reported to be safe in the officials' yamens.

ILLINOIS SILVERITES.

Everything in Readiness for Their Convention To-morrow.

Springfield, Ill., June 4.—But few delegates and visitors to the Democratic monetary convention were here last night, but many are expected to-day. The convention will be called to order at noon on Wednesday by W. H. Hinrichsen, chairman of the state central committee, who will address the delegates. Mr. Hinrichsen thinks the convention will be one of the largest ever held in the state. The state committee members have decided that any criticism of the administration of President Cleveland would injure the party and defeat the object of the convention. The resolutions, so far as can be ascertained, will declare the present monetary laws to be the cause for the financial and business depression of the last three years. The direct declaration, it is said, will be for the free and unlimited coinage of silver at a ratio of 16 to 1. It now appears that the talk about electing delegates to a national monetary convention will vanish in thin air. Several of the committeemen have come out against such action, saying it will be time to elect delegates to such a convention when it has been called by the proper authorities. The committee on resolutions, which will be composed of one representative from each of the twenty-two congressional districts in Illinois, the state committee claim, will make no effort to foist out and dried resolutions on the convention.

G. A. R. Veterans for Atlanta.

Atlanta, Ga., June 4.—C. E. Harman, general passenger agent of the Western and Atlantic railroad, has notified the exposition company that he had closed a contract for hauling 25,000 members of the G. A. R. from Chattanooga to Atlanta on Sept. 20. The confederate veterans will come from all points to meet the G. A. R. men and the public comfort committee of the exposition will have to arrange for the accommodation of not less than 50,000 visitors on that occasion. It is estimated that the opening day, Sept. 18, when President Cleveland and his cabinet will be here, the crowd will not be less than 100,000.

Settle the Big Road Race.

Chicago, June 4.—Homer Fairmon, who was announced as the winner of the Decoration day road race, was confirmed in the honor at the meeting of the judges and referee last night. George L. Emerson, who first claimed to be the time winner, was thrown out of the list for cutting off several blocks of the seeded course, and will probably never be allowed to compete in a road race again. E. M. Spike of the South Side Cycling club, one of the least prominent claimants to the honor, was awarded the time prize.

Close the Bank's Doors.

Washington, June 4.—Comptroller Eckels yesterday received a telegram stating that the First National bank of Pella, Iowa, had closed its doors. Bank Examiner Howard was placed in charge. The bank has a capital of \$50,000. The president attempted suicide Sunday night.

Heavy Rain in Nebraska.

Omaha, Neb., June 4.—It has rained almost continually in the state for three days. The most encouraging reports are received of the manner in which the torrents of rain have effaced the drought damage in this and adjacent states.

SUN KILLS PEOPLE
IN MANY CITIESINTENSE HEAT IN NEW YORK
CITY.

No Such Weather Ever Experienced Before This Early in the Summer—Four Deaths at Chicago, Seven at Philadelphia and Four at Baltimore—The Record Elsewhere.

New York, June 4.—A cool easterly breeze sprung up shortly after 3 o'clock yesterday afternoon and, it is hoped, put an end to the hot weather, for a season at least. For five days the mercury has ranged from 70 to 95 degrees above zero. It is safe to say that at least twenty-five persons have died during the last five days as a result of the heated term and that over 150 have been prostrated and taken to the different hospitals of the city. A good many of those taken to the different publication institutions will not recover. The death list for yesterday is one of the largest on record. Ten people were carried off the streets dead and eleven more are in a precarious condition.

Intense Heat in Michigan.

Detroit, Mich., June 4.—Yesterday was the hottest day of the heated season and the thermometer in the signal-service office at noon marked 93 deg. and at 3 o'clock 96 deg. On the street the mercury showed 8 deg. above this, passing the 100 mark. Dispatches from points throughout the state show that the heat is general and numerous prostrations are reported. No fatalities were reported in Detroit up to 10 o'clock last night.

Seven Fatal Cases at Philadelphia.

Philadelphia, Pa., June 4.—Seven were yesterday's addition to the heated term fatalities. There were nearly fifty prostrations, about one-third of which number was made up of policemen and firemen, who held their annual parade, marching under the broiling sun for several hours. The fatal cases were principally infants and old persons. The maximum temperature was 96.

Four Deaths at Chicago.

Chicago, June 4.—The number of prostrations from heat yesterday was greater than any day during the hot spell, because of the combined rise of temperature and humidity, the latter at sunset being 57 per cent, or 17 points higher than the evening before. Four persons have died and nineteen are in hospitals suffering from sunstroke.

Record Broken at Louisville.

Louisville, Ky., June 4.—Yesterday a record-breaker, the thermometer at 1:15 at the signal-service office registering 99.2. On the surface the 100 mark has been passed. Relief is promised in the shape of thunderstorms. There have been two prostrations, one of which is serious.

Scorching Weather at Cincinnati.

Cincinnati, O., June 4.—Yesterday was the hottest day on record in the signal-service office for the first week in June. The mercury rose from 78 at 7 a. m. to the maximum of 97 at 3 p. m., with a clear sky. A good breeze blew all day and not a case of prostration was reported.

Many Prostrations at Cleveland.

Cleveland, O., June 4.—The temperature yesterday, while slightly below that of Sunday, caused much suffering. Several prostrations were reported. At 3 o'clock in the afternoon the mercury indicated 89.

Snow in Colorado.

Cripple Creek, Col., June 4.—It was snowing nearly all day yesterday in the Cripple Creek district, but at night the weather cleared, although the sidewalks and streets are covered with snow.

Four Dead at Baltimore.

Baltimore, Md., June 4.—There were four fatal cases of prostration by the heat yesterday. The thermometer marked 97 deg.

Freight Train Held Up.

South Bend, Ind., June 4.—Freight train No. 11, on the Lake Shore road, was held up Sunday night between here and Mishawaka. The engineer was compelled, at the point of a revolver, to stop. Two persons watched him and the fireman until the rest of the gang ran through the valuable merchandise cars. Several cars were broken open and the stolen goods loaded into wagons. Yesterday morning Detective Frank Brobst brought in five local characters, securely handcuffed. Brobst says he thinks there are about twenty in the gang, and that they are all home people.

Whites Prevented a Lynching.

Columbia, S. C., June 4.—A 16-year-old negro boy assaulted a 45-year-old negro girl near Williamston, S. C., yesterday afternoon. He was employed by the parents of the child to care for her in their absence. While they were away from home yesterday he committed the deed and was caught in the act. A strong guard of white men prevented his being lynched by a hundred infuriated negroes and he was safely conducted to the jail at Anderson, where he is now confined.

Silver Convention for Kansas.

Topeka, Kas., June 4.—A call for a state convention of the advocates of the free coinage of silver at the ratio of 16 to 1, was issued yesterday by A. C. Shinn of Ottawa, vice president of the American Bimetallist league, the convention to be held in Topeka, June 18. The call requests the attendance of all friends of silver regardless of party affiliations. It is expected that such distinguished silver men as Congressmen Sibley, Bryan and Broderick and President Warner of the American Bimetallist league will be present.

KENRICK DEPOSED.

Venerable Archbishop of St. Louis Is Compulsorily Retired.

St. Louis, Mo., June 4.—Archbishop Kendrick has been deposed by the pope. A cablegram announcing his deposition and the appointment of Most Rev. John J. Kain, archbishop of Oxyrinchus "in

ARCHBISHOP KENRICK.

partibus fidelium" as the new archbishop of St. Louis, was publicly read during solemn Pentecostal services at the cathedral on Sunday morning by Vicar General Muchisleben.

The effect of the decision is to effectually retire Archbishop Kendrick from all rights, titles and privileges obtaining to the archbishopric of St. Louis. Under supplementary instructions expected from the propaganda an order will come to provide a fitting annuity for him out of the resources of the archdiocese. The deposition or retirement of Archbishop Kendrick is the result of a petition to the propoganda, setting forth his mental incapacity and the dangerous condition of the business affairs of the diocese.

VAST DAMAGE IN NEBRASKA.

Bursting of the Curtis Lake Dam Impoverishes Farmers.

Curtis, Neb., June 4.—Reports from south of here indicate that vast damage has resulted from the bursting of the lake dam. Farm products of every description were engulfed, and in many instances, where the homes of the farmers were in the immediate vicinity of the valley, the disaster was almost ruinous. Small buildings were swept away or undermined in such a manner as to be rendered worthless, and in some sections the water rose so rapidly as to seriously menace the lives of families. No loss of lives has thus far been reported. Twenty miles to the south, where the Medicine valley is confined to a small space, it is believed the damage will be heaviest. Forty miles below, where the river empties into the Republican at Cambridge, Neb., some damage was done to railroad property, but of no great importance.

MUCH RAIN IN KANSAS.

Will Be of the Greatest Value to Wheat—Some Damage Done.

Kansas City, Mo., June 4.—The rain-storm that prevailed over southern and western Kansas Sunday was the heaviest known in the history of many of the counties. At one point not less than six inches of water fell. Several wash-outs are reported on the Salina branch of the Union Pacific and on the main line near Greenfield. The rain extended as far south as Hennessy, I. T., and as far west as the Colorado line. The rain will prove of great value to wheat. Corn was never in so good a condition as now.

In Dund, Hitchcock, Red Willow, Furnas, Harlan, Phelps, Frontier, Lincoln and Dawson counties the rain of the last four days has amounted to a deluge. Much damage has resulted.

Can Not Solve the Mystery.

San Francisco, Cal., June 4.—The police have gained no light upon the mysterious murder of Miss Nellie Harrington. The promising lead which seemed to open from ex-Senator Buck's connection with the case has not realized expectations. He has established a complete alibi. The case is one of the most puzzling the detectives have had for years, because of the scanty data. The theory that the crime was committed by some one who sneaked into the house from the rear is negated by the fact that no valuables were taken except a watch, which is thought to have borne a tell-tale inscription that would have revealed the murderer's identity.

Four Cities Want It.

Galesburg, Ill., June 4.—The question of permanent headquarters for the Brotherhood of Railway Trainmen was about the only business considered by the convention in session here yesterday. Milwaukee, Columbus, Ohio; Peoria and Galesburg have all submitted bids. The election of officers, which is being held today, will have much to do with where the headquarters will be located.

English Crop Prospects Poor.

London, June 4.—The Times prints a gloomy review of the English crop prospects. It says that much of the spring grain is no further advanced than usual at the middle of April. The fruit crop in Kent, it appears, has also suffered from the drought.

The situation in France is favorable. The outlook for the hay crop is satisfactory. In rye there is generally a light crop, and the average yield of wheat is expected.

Marti Still Lives.

New York, June 4.—Benjamin J. Guerra, treasurer of the Cuban revolutionary party in the United States, has received a message from General Gomez, commander-in-chief of the insurgent forces, saying that Marti still lives and was not even wounded. This is the first news which Cubans here have had of their leader beyond that sent out by the Spanish authorities. This comes from a Cuban source and is naturally regarded by Cubans as reliable.

RAILROADS OFFER
WAS VOTED DOWNBAYFIELD COUNTY CITIZENS
WANT MORE CONCESSIONS.

At a Mass Meeting at Washburn It Was Decided to Reject the Proposition of the St. P. M. and A. Line—Another Meeting Has Been Called and They May Reconsider.

Washburn, June 4.—[Special].—A meeting of citizens was held last night to discuss the proposition of the St. Paul, Minneapolis & Ashland Railroad company made to Bayfield county, to build a line through. The railroad's proposition was rejected when the matter was put to a vote as the people seemed to want further concessions from the line. Another meeting has been called, however, and the vote may be reconsidered.

Strikers Give Up the Fight.

Sheboygan, Wis., June 4.—The striking chair and furniture men have declared the strike at an end and will return to work without having gained the increase in wages demanded. They have lost \$125,000 in wages, having been out five weeks.

WHEAT HAS A FALL.

Price at Chicago Drops Early, But Has a Rally Later.

Chicago, June 4.—The wheat market on the board of trade was pounded fearfully by the "bears" yesterday, assisted by the "bulls," who desired to realize on their purchases made at lower levels, and the result was a decline of 2½¢ a bushel before the hammering process was stopped. Wheat closed Saturday at 79½¢ and opened nervous and excited at 79½¢. The opening quotation was the highest of the day. Within three minutes the props were knocked from under the market and wheat was selling at 78½¢. Then the crowd jumped in and stamped it down to nearly the lowest point it has reached for days. The trading was heavy only in spots, but the pit was wild. There was noise and shouting when 78¢ was passed. It was a tumult and riot when the 76¢ mark was wiped out. Brokers were widely divided in their opinion of the future, and men touching elbows predicted, the one 65¢ and the other dollar wheat.

Corn was almost as badly hit as wheat. It opened at 52½¢ to 52½¢, against the close on Saturday of 52½¢. The corn traders were in sympathy with the wheat crowd, but they had better reasons for breaking the market. Every one had corn to sell, but few seemed to want it, and in short order the quotations went down with a whiff to 50½¢. There was a substantial rally in the last half-hour, and the closing prices were: Wheat, 78½¢; corn, 51½¢; and the market was strong at these quotations.

DENVER HOMES IN DANGER.

Many Houses Threatened with Destruction—Platte River Rising.

Denver, Colo., June 4.—Heavy rains throughout Eastern Colorado and rapid melting of snow in the mountains are making the creeks and rivers boom and causing much uneasiness among railroad managers. So far the Rock Island has been the greatest sufferer. Four hundred feet of track west of Limon, Colo., was washed away by an overflow of the Big Sandy and between Colorado Springs and Limon Junction traffic is suspended.

A bridge was also reported washed away on the Kansas Pacific branch of the Union Pacific, near Oakley, 270 miles east of Denver. Clear creek has risen to an alarming extent, causing a suspension of work on the placer mines. The crops throughout Eastern Colorado have been considerably damaged by cloud bursts and hail. The Platte river is out of its banks in places and people living on the low lands in this city have prepared to flee from their homes. The Arkansas river has risen two feet at Pueblo, but no damage has resulted.

GOING TO GRAY CABLES.

Mrs. Cleveland Will Leave Washington To-morrow.

Washington, June 4.—According to present arrangements Mrs. Cleveland and Mrs. Olney, with their households, will leave Washington for their summer homes on the Massachusetts coast next Wednesday morning. Mr. Olney's summer residence at Falmouth is only fifteen miles from Gray Cables. Only to the press of public business, the president and the attorney-general will not accompany their families, but will join them about two weeks later.

Cordage Trust on the Rocks.

Boston, Mass., June 4.—In the United States circuit court yesterday Judge Colt appointed John I. Waterbury, of Morristown, N. J., and William E. Strong, of Strong & Cadwalader, as receivers of the United States Cordage company on petition of E. Rollins Morse, of this city, as representative of the creditors. It has been known for some time that the company was in financial difficulties and the appointment of receivers was not unexpected. No statement of the condition of the company is obtainable.

Will Not Yet Send Reinforcements.

Madrid, June 4.—The cabinet at a meeting discussed the situation of affairs in Cuba and decided to await the decision of the captain-general and Marshal Martinez de Campos before sending any further reinforcements.

Sad Echo of Colima Disaster.

San Francisco, Cal., June 4.—Alfred Irving, who was supposed to have gone down with the Colima, is safe in Tapachula, half way between San Renito and Tapachula, but he arrived at port too late and missed the boat on which his wife perished.

HOT SESSION HELD BY THE COUNCIL

ALDERMEN SWELTER DOING
CITY BUSINESS.

Went to Repair the Bridge—
Saloon Keepers Want to Pay
License in Installments—School
Board Ask for \$27,000—Much
Routine Work Was Done.

Janesville Aldermen took off their coats last evening to deliberate on city matters, as the temperature of the council chamber was up in the 90's and the heat was too oppressive for comfort. There was not a great deal of important business aside from routine work. The contract for repairing the Milwaukee street bridge was awarded to Ryan and Brown, at \$1.14 cents per square yard, the highest bid being \$1.82; thirty-eight saloon keepers petitioned the council to pass an ordinance that will permit them to pay their license on the installment plan, \$250 in July, and the balance in January, and Jackson street bridge is to be repaired by contract. Somewhat of a sensation was created when the clerk read a communication from the president of the school board giving in detail the needs of the public schools, closing with an estimate of the amount of money which, in his opinion, would be required to be raised by tax for the support of the schools the coming year. Mayor Baines presided, and all the aldermen were present except Alderman Heddler.

Health Officer Gibson submitted his report for the month of May, showing that there had been during the month five cases of diphtheria and five cases of scarletina, one death from diphtheria, and that there was now only one case of scarletina. The report was placed on file, as was also the municipal court report for May.

Accept Ryan & Brown's Bid.
Five bids for repairing Milwaukee street bridge were presented, as follows:

W. H. Blair.....\$1.82 per square yard
Stuart & Garbutt.....\$1.55 per square yard
H. B. Haskell.....\$1.22 per square yard
Newman & Peters.....\$1.17 per square yard
Ryan & Brown.....\$1.14 per square yard

The plans and specifications for the bridge repairs were read and adopted, and on motion of Alderman McLean, the contract was awarded to Ryan & Brown. Mayor Baines announced the appointment of John W. Hogan as special police, May 24, 1895, to August 24, 1895. The appointment was confirmed. The quarterly report of the chief of fire department was presented and referred to the fire and water committee, and afterwards placed on file. The chief reports that since January 1, 1895, department has responded to twenty-nine alarms. Only three serious fires have occurred, the Victor, Allison and Doty factories, other losses being few and very small. The chief makes a number of recommendations, the most important of which is the laying of a 10-inch water pipe on Franklin street, from Center street north to West Bluff street, that a better supply of water can be had in case of fire in the business district on the west side. Minor recommendations were also made for improvements in the department and for repairs to buildings.

Saloon Keepers Petition.
A petition signed by thirty-eight saloon keepers was read, asking the council to pass an ordinance which will permit the payment of the license—\$250 in July, and \$250 in January. The petition was referred to the license committee.

The mayor report of the school board was found correct and ordered published. The profile and grade of Walker street was adopted, and Street Commissioner Watson presented a communication informing the council that the contractor constructing the Pleasant street sewer, had not properly restored the street, and the street commissioner was directed to notify the parties to at once restore the street as it was.

The report of the street commissioner in relation to the repairs necessary at Jackson street bridge, was read; after which Alderman Hemming of the finance committee, reported in favor of allowing sundry bills against the several funds, which was concurred in. Alderman Smith, of the judiciary committee, submitted the following report which was adopted:

J. C. Card's Report.

To the mayor and common council of the city of Janesville, Wis.: The judiciary committee, to whom was referred the report of J. C. Card, of his examination of the books of the city treasurer, James A. Fathers, from April 17, 1894, to May 1, 1895, would

report that they have examined the same and found it correct.

They find from said report and the books of the treasurer that he should have cash to the amount of \$36,065.25 on hand May 1, 1895. We find that he had on deposit at that time to the credit of the city \$35,539.47, and that he has cash on hand \$525.78, making the amount due the city \$36,065.25. Your committee found that there had been some clerical errors made by the treasurer, both for and against himself, but the balance was in favor of the city. These have all been corrected, and the funds of the city are all accounted for and everything in the treasurer's office is in good shape. We would recommend that this report be attached to the report of Mr. Card.

E. SMITH,
W. J. HEMMING,
S. C. BURNHAM.

The appointment of Arthur Ott as a "call" member of the fire department, was confirmed.

To Sprinkle The Park.
The park committee was directed to lay pipes for sprinkling the Fourth ward park, and to contract with the water company for a supply of water and also for sprinkling Riverview park and orders were adopted as follows:

By Alderman McLean—directing the city engineer to prepare profile of grade for Center, Palm and Pine streets, in Smith's addition.

By Alderman Kothman—requiring sewer contractors to restore Pleasant street to its former condition.

By Alderman Winslow—for sidewalk at east end of Court house park along East street.

Alderman Hemming—for plans and specification for repairing Jackson street bridge, also directing the clerk to advertise for bids.

By Alderman Burnham—Directing city engineer to prepare profile of grade of Fifth avenue from Caroline street to Fifth avenue; to repair Glen street from Bluff to Hickory, and for block crosswalk across Glen and Hickory street.

Alderman Burnham then presented the following preamble and resolution, which was adopted.

Pay License By Installments.

WHEREAS, By a decision of the supreme court of this state, the city of Janesville is required to pay to the county of Rock the amount retained from license money obtained by the city of Janesville for the sale of intoxicating liquors; and

WHEREAS, The payment of this amount, in addition to the amount required to be paid on license that will be granted the present year will be a very heavy tax on the city, therefore,

Resolved, That the common council of the city of Janesville do petition the county board of Rock county to accept one-half of the amount due the county under the decision of the supreme court the present year and the balance next year.

Alderman McLean—Directing the street commissioner to prepare Milwaukee street bridge for the contractors, but not until the contractors secured the material, so that the repairing would not be interrupted.

On motion of Alderman Burnham, the street commissioner was directed to build the sidewalks and railing on Milwaukee street bridge.

Sealer T. D. Kenyon made a statement regarding the weights belonging to the city, requesting that authority be given to have the same tested, but no action was taken.

Alderman McLean—Directing the city clerk to advertise for bids for furnishing the city with lumber and tile for the ensuing year.

Communication Received.

Alderman Stearns presented a communication from the president of the school board, in relation to the requirements of the city schools, which communication was referred to the school committee, after which he also presented the following communication from the school board, which was disposed of in the same manner.

WHEREAS, Pursuant to the provisions of the city charter, it becomes the duty of the board of education to determine and certify to the common council the amount of money in their opinion necessary or proper to be raised; now therefore, be it

Resolved, That it be the sense of this board that the sum of \$27,000 be raised for general school purposes, to be divided as follows:

Running expenses new high school.....\$ 2,300
Equipment new high school..... 2,500
Fuel..... 2,000
Repairs..... 2,000
Salary and superintendence..... 18,300

Total.....\$27,000

We hereby certify that we deem it necessary to raise the above sum of money for school purposes for the ensuing year.

JOHN CUNNINGHAM,
Clerk Board of Education.

SCHOOL BOARD'S LONG SESSION
No Change Made in the Teaching Force—
Other Business Done

The school board held a long session last evening, which was largely devoted to discussing the appointment of teachers and making estimates of expenses. It was finally decided to ask the council to raise \$27,000 for school purposes and the board adopted the report of the committee on teachers, recommending the employment of the old corps of teachers. The board audited bills amounting to \$123.01 and decided that hereafter the regular meeting of the board will be on Friday instead of Monday evenings. The clerk was directed to have some periodicals in the high school bound, and the building committee was directed to see that the new high school grounds were graded according to contract. President Golda submitted a lengthy report, giving in detail the requirements of the schools, after which the board adjourned.

10. Annual meeting of the Alumni association of the college, at 3 o'clock in the afternoon, and at the Seventh Day Baptist church. Addresses will be presented by Professor Edwin Shaw, president of the association; by President Andrew J. Steele, of the LeMay normal institute, Memphis, Tenn., and by John Barlass of Janesville.

11. Annus' concert of the music school under the direction of Professor J. M. Stillman, in the evening at 7:45, at the Seventh Day Baptist church.

Du Lac Grange will hold its next meeting Saturday evening, June 8. W. B. Morgan, M. D., of St. Louis, was a guest of Pres. Whitford last week. Miss Birdie Miller returned from Milwaukee Friday. L. E. Todd and wife and Mr. Potter and wife, of Albion attended church here Saturday.

The entertainment by Miss Thompson at the M. E. church Saturday evening was a novelty and hardly suited to the place. J. D. Clarke has gone to Monticello to spend a week testing butter as a representative of the Wisconsin Experiment station. Robert Skinner and wife of Madison spent Saturday in town. Miss Bessie Clarke visited at Albion this week.

The carload shipments from this station last week included two cars of tobacco, three of oats and one of corn. E. Richardson is at home to enjoy a vacation of two months from his duties as a traveling salesman. Rev. Webster Millar of Waukesha, was here last week to see his father, Rev. W. T. Millar, who has been quite ill.

Mr. and Mrs. Koch of Fielding, Ill., visited their son and daughter, J. C. Goodrich and wife last week. Thirteen persons united with the Seventh Day Baptist church Saturday morning. Prof. John Decker, who has charge of the cheese department in the university dairy school, has been the guest of J. D. Clarke.

Mr. Castle and Mrs. Byron Crumb have been visiting at E. S. Babcock's this week. On Friday the Clinton "Greys" and "Miltons" play the return game here. This will be the best game of the season. Remember that horses and carriages must not be driven into the park. Dr. James Mills of Janesville, greeted a large number of Milton friends Monday, his first visit here since he returned from abroad.

Lima News Notes.

LIMA, June 4—Mr. and Mrs. Truett left yesterday for their home in Wautoma, Wis. Our postmistress returned Tuesday from a Sunday visit with her daughter in Janesville. E. B. Cory and wife, Rev. I. S. Jones and wife are to go to Lake Koshkonong on a fishing tour. O. yes, remember the free entertainment at the church Friday evening, given by the Woman's Mission society. It will be a rare treat. Ice cream will be served at the close of the literary programme and all are cordially invited.

The Week At Shopiere.

SHOPIERS, June 4—The exercises held here on Memorial day were well attended in spite of the showers and all were well pleased with the address given by Mr. McGowan of Janesville, and also with the rest of the programme. After the services the veterans and others who could, repaired to the cemetery and decorated the graves of their comrades. A children's day concert will be held at the M. E. church next Sunday evening and the following Sunday eve the state superintendent of Sunday Schools, assisted by his wife, will take charge of the evening service at the Congregational church. There will be a school entertainment held at the Congregational church Friday evening, June 7. All are cordially invited to attend. Admission ten cents, the proceeds to be used to purchase new books for the library. Rev. Hammond of Emerald Grove exchanged pulpits with Rev. Mr. Barbour last Sunday. Miss Phoebe Lamphier from Janesville is spending a few days with Mrs. Burham. Canvas and Edward Hopkins left Monday for a pleasant trip to the west. The Turtleville school will have a flag raising June 21.

News Notes From Fairfield.

FAIRFIELD, June 4—The village school closes this week Friday with a picnic. Miss Gertie Capen has been very successful in the school work throughout the year. Memorial exercises were held at the church last Wednesday afternoon. Rev. Mr. White gave an address and the school children rendered a short program, after which the children decorated the soldiers' graves. Last week Monday was the annual cemetery meeting and quite a number of our citizens came out and cleared up the grounds in good shape. Children's day will be observed with a concert on Saturday evening, June 9. Misses Hackwell and Clark are delegates to the Elkhorn convention this week. Mrs. I. Smith has had a fine monument placed in her lot at the cemetery, in memory of her late husband. Commissioner Duthie is busy nowadays improving our highways. Cards are out announcing the marriage of David Dykeman and Miss Elma Cutter on June 12.

To The Public:

The steamer Columbia leaves daily for Crystal Springs at 10 o'clock a. m. and 2 o'clock p. m. Makes special trips when wanted. A. Buchholz, Capt.

Postponement.

The members of the Janesville Art League regret to announce that owing to delays in repairing their new rooms, it will be necessary to postpone their reception until June 13.

HIRE MISS ROLSTON AS THE SOLOIST

SENIOR CONCERT AT BELOIT IS
OF INTEREST.

Former Janesville Singer Will Be On
the Program With Other Celebrities, and Many From Here Will
Attend—Mrs. E. B. Eldredge Gave
a Pleasant Tea.

The Senior concert at Beloit this year promises to be of especial interest to Janesville people as Miss Belle Rolston of Minneapolis, has been engaged as the soprano soloist for the evening. The Max Bendix string quartette, the cream of the Thomas orchestra, and the finest organization of the kind in the west, has been secured and Max Bendix will also appear on the program as violin soloist. Bicknell Young, professor of vocal music in the Chicago Conservatory, and ranking as one of the best, if not the best baritone in the city has been engaged to sing and his wife, Mrs. Mazzucato Young, the noted accompanist will play the accompaniments of the evening.

The concert will be held in the First Congregational church, and a reception after the concert will add social interest to the event. District Passenger Agent James Gibson of the Northwestern road has agreed to make arrangements so that Janesville people can return the same evening, and in consequence there will undoubtedly be a large attendance from the Bower City.

WERE PLEASANTLY ENTERTAINED.

Mrs. B. B. Eldredge Gave a Six O'clock
Tea Last Evening.

Mrs. B. B. Eldredge entertained a number of her lady friends last evening, at her Park Place residence. The affair was in the nature of a 6 o'clock tea, the tables being tastefully decorated. After refreshments were served, the rest of the evening was devoted to chats on the lawn, whist and other social enjoyments. Those present were:

MISS HARRINGTON'S RECEPTION.

The Green Bay People Entertain Her at
the Y. P. S. C. E. Convention.

"Miss Nettie Harrington of Janesville, state superintendent of the junior work of the Y. P. S. C. E., was in the city yesterday," says the Green Bay Advocate, in speaking of the recent convention held in that city. "In the afternoon she conducted a rally of the juniors, in the Presbyterian church, west side. She gave the young people a very entertaining and instructive talk on the junior work throughout the state. In the evening a reception was tendered Miss Harrington in the parlors of the Presbyterian church by the local Y. P. S. C. E. All members of Christian Endeavor societies were invited to this reception. About fifty members of the local societies availed themselves of this opportunity to meet Miss Harrington."

SUNDAY'S SERMON BY DR. TALMAGE

ONE HEROIC CHARACTER IN
JEWISH HISTORY.

"After Him Was Shamgar, Which Slew
of the Philistines Six Hundred
Men with an Ox-Goad" — Judges
Chapter 3, Verse 21.

ONE DAY WHILE Shamgar, the farmer, was plowing with a yoke of oxen, his command of whoa-haw-goe was changed to the shout of battle. Philistines, always ready to make trouble, march up with sword and spear. Shamgar, the plowman, had no sword, and would not probably have known how to wield it if he had possessed one. But fight he must, or go down under the stroke of the Philistines. He had an ox-goad—a weapon used to urge on the lazy team; a weapon about eight feet long, with a sharp iron at one end to puncture the beast, and a wide iron chisel, or shovel, at the other end with which to scrape the clumps of soil from the plowshare. Yet with the iron prong at one end of the ox-goad and the iron scraper at the other, it was not such a weapon as one would desire to use in battle with armed Philistines. But God helped the farmer, and leaving the oxen to look after themselves, he charged upon the invaders of his homestead. Some of the commentators, to make it easier for Shamgar, suggest that perhaps he led a regiment of farmers into the combat, ox-goad up and down, and this way and that; but the Lord does not need any of you to help in making the Scriptures, and Shamgar, with the Lord on his side, was mightier than six hundred Philistines with the Lord against them. The battle opened. Shamgar, with muscle strengthened by open air, and plowman's, and reaper's, and thresher's toil, uses the only weapon at hand, and he swings the ox-goad up and down, and this way and that; now stabbing with the iron prong at one end of it, and now thrusting with the iron scraper at the other, and now bringing down the whole weight of the instrument upon the heads of the enemy. The Philistines are in a panic, and the supernatural forces come in, and a blow that would not under other circumstances have prostrated or slain, left its victim lifeless; until when Shamgar walked over the field, he counted one hundred dead, two hundred dead, three hundred dead, four hundred dead, five hundred dead, six hundred dead—all the work done by an ox-goad with an iron prong at one end and an iron shovel at the other. The fame of this achievement by this farmer with an awkward weapon of war, spread abroad, and lionized him, until he was hoisted into the highest place of power, and became the third of the mighty judges of Israel. So you see that Cincinnati was not the only man lifted from plow to throne.

For what reason was this unprecedented and unparalleled victory of a farmer's ox-goad put into this Bible, where there was no spare room for the unimportant and the trivial?

It was, first of all, to teach you, and to teach me, and to teach all past ages since then, and to teach all ages to come, that in the war for God, and against sin, we ought to put to the best use the weapon we happen to have on hand. Why did not Shamgar wait until he could get a war charger, with neck arched and back caparisoned, and nostrils sniffing the battle afar off, or until he could get war equipment, or could drill a regiment, and wheeling them into line, command them forward to the charge? To wait for that would have been defeat and annihilation. So he takes the best weapon he could lay hold of, and that is an ox-goad. We are called into the battle for the right, and against wrong, and many of us have not just the kind of weapon we would prefer. It may not be a sword of argument. It may not be the spear of sharp, thrusting wit. It may not be the battering-ram of denunciation. But there is something we can do, and some forces we can wield. Do not wait for what you have not, but use what you have. Perhaps you have not eloquence, but you have a smile. Well, a smile of encouragement has changed the behavior of tens of thousands of wanderers, and brought them back to God, and enthroned them in heaven. You cannot make a persuasive appeal, but you can set an example, and a good example has saved more souls than you could count in a year, if you counted all the time. You cannot give ten thousand dollars, but you can give as much as the widow of the Gospel, whose two mites, the smallest coins of the Hebrews, were bestowed in such a spirit as to make her more famous than all the contributions that ever endowed all the hospitals and universities of all Christendom, of all time. You have very limited vocabulary, but you can say "yes" or "no," and a firm "yes" or an emphatic "no," has traversed the centuries, and will traverse all eternity, with good influence. You may not have the courage to confront a large assemblage but you can tell a Sunday school class of two, a boy and a girl—how to find Christ, and one of them may become a William Carey, to start influences that will reach India, and the other a Florence Nightingale, who will illumine battlefields covered with the dying and the dead.

Again my subject springs upon us the thought that in calculating the prospects of religious attempt, we must take omnipotence, and omniscience, and omnipresence, and all the other attributes of God into the calculation. Whom do you see on that plowed field of my text? One hearer says: "I see Shamgar." Another hearer says: "I see six hundred Philistines." My hearer, you have missed the chief personage on that battlefield of plowed ground. I also see Shamgar, and six hundred Philistines, but more than all and mightier than all, and more overwhelming than all, I see God. Shamgar with his unaided arm, however muscular, and with that humble instrument made for agricultural purposes, and never constructed for combat, could not have wrought such victory. It was omnipotence above and beneath, and back of and at the point of the ox-goad. Before that battle was over the plowman realized this, and all the six hundred Philistines realized it, and all who visited the battlefield afterward appreciated it. I want in heaven

to hear the story, for it can never be fully told on earth—perhaps some day may be set apart for the rehearsal, while all heaven listens—the story of how God blessed awkward and humble instrumentalities. Many an evangelist has come into a town given up to worldliness. The pastors say to the evangelist: "We are glad you have come, but it is a hard field and we feel sorry for you. The members of our churches play progressive euchre, and go to the theater, and bet at the horse races, and gaiety and fashion have taken possession of the town. We have advertised your meetings, but are not very hopeful. God bless you." This evangelist takes his place on platform or pulpit. He never graduated at college, and there are before him twenty graduates of the best universities. He never took one lesson in elocution, and there are before him twenty trained orators. Many of the ladies present are graduates of the highest female seminaries, and one slip in grammar or one mispronunciation will result in suppressed giggle.

Amid the general chill that pervades the house, the unpretending evangelist opens his Bible and takes for his text: "Lord, that my eyes may be opened." Opera glasses in the gallery curiously scrutinize the speaker. He tells in a plain way the story of the blind man, tells two or three touching anecdotes, and the general chill gives way before a strange warmth. A classical hearer who took the first honor at Yale, and who is a prince of proprieties, finds his spectacles becoming dim with a moisture suggestive of tears. A worldly mother who has been bringing up her sons and daughters in utter godlessness, puts her handkerchief to her eyes and begins to weep. Highly educated men who came to criticize and pick to pieces, and find fault, bow on their gold-headed canes. What is that sound from under the gallery? It is a sob, and sobs are catching; and all along the wall, and all up and down the audience there is deep emotion, so that when at the close of the service anxious souls are invited to special seats, or the inquiry room, they come up by scores, and kneel and repent, and rise up pardoned; the whole town is shaken, and places of evil amusement are sparsely attended, and rum holes lose their patrons, and the churches are thronged, and the whole community is cleansed, and elevated, and rejoiced. What power did the evangelist bring to bear to capture that town for righteousness? Not one brilliant epigram did he utter. Not one graceful gesture did he make. Not one rhetorical climax did he pile up. But there was something about him that people had not taken in the estimate when they prophesied the failure of that work. They had not taken into calculation the omnipotence of the Holy Ghost. It was not the flash of a Damascus blade. It was God, before and behind, and all around the ox-goad. When people say that crime will triumph, and the world will never be converted because of the seeming insufficiency of the means employed, they count the six hundred armed Philistines on one side, and Shamgar, the farmer, awkwardly equipped, on the other side; not realizing that the chariots of God are twenty thousand, and that all heaven, cherubic, seraphic, archangelic, Deific, is on what otherwise would be the weak side. Napoleon, the author of the saying, "God is on the side of the heaviest artillery," lived to find out his mistake; for at Waterloo the one hundred and sixty guns of the English overcame the two hundred and fifty guns of the French. God is on the side of the right, and one man in the right will eventually be found stronger than six hundred men in the wrong. In all estimates of any kind of Christian work, do not make the mistake every day made of leaving out the Head of the Universe.

Again, my subject springs upon us the thought that in God's service it is best to use weapons that are particularly suited to us. Shamgar had, like many of us, been brought up on a farm. He knew nothing about javelins, and bucklers, and helmets, and breastplates and greaves of brass and catapults, and ballistae, and iron scythes fastened to the axles of chariots. But he was familiar with the flail of the threshing floor, and knew how to pound with that; and the ax of the woods, and knew how to hew with that; and the oxgoad of the plowman, and knew how to thrust with that. And you and I will do best to use those means that we can best handle; those weapons with which we can make the most execution. Some in God's service will do best with the pen; some with the voice; some by extemporaneous speech for they have the whole vocabulary of the English language half way between their brain and tongue; and others will do best with manuscript spread out before them. Some will serve God by the plow, raising wheat and corn and giving liberally of what they sell to churches and missions; some as merchants, and out of their profits will dedicate a tenth to the Lord; some as physicians, prescribing for the world's ailments; and some as attorneys, defending innocence, and obtaining rights that otherwise would not be recognized; and some as sailors, helping bridge the seas; and some as teachers and pastors. The kingdom of God is dreadfully retarded by so many of us attempting to do that which we cannot do; reaching up for broadsword or falchion, or bayonet, or scimitar, or Enfield rifle or Paikhan's gun, while we ought to be content with an ox-goad. I thank God that there are tens of thousands of Christians whom you never heard of, and never will hear of until you see them in the high places of heaven, who are now in a quiet way in homes, and schoolhouses, and in praying circles, and by sick beds, and up dark alleys saying the saving word, and doing the saving deed; the aggregation of their work overpowering the most ambitious statistics. In the grand review of heaven, when the regiments pass the Lord of Hosts, there will be whole regiments of nurses, and Sabbath school teachers, and tract distributors, and unpretending workers, before whom, as they pass, the kings and queens of God and the Lamb will lift flashing coronet, and bow down in recognition and reverence. The most of the Christian work for the world's reclamation and salvation will be done by people of one talent and two talents, while the ten-talent people are up in the astronomical observatories studying other worlds, though they do little or nothing for the redemption of this world; or are up in the rarified realms of "Higher Criticism," trying to find out that Moses did not write the Pentateuch, or to prove that the throat of the whale was not large enough to

swallow the minister who declined to call to Nineveh, and apologizing for the Almighty for certain inexplicable things they have found in the scriptures. It will be found out at the last that the Krupp guns have not done so much to capture this world for God as the ox-goads.

Go out against the Philistines. We must admit the odds are against us—six hundred to one. In the matter of dollars, those devoted to worldliness and sin, and dissipation, when compared with the dollars devoted to holiness and virtue—six hundred to one. The houses set apart for vice, and despoliation and ruin, as compared with those dedicated to good, six hundred to one. Of printed newspaper sheets scattered abroad from day to day, those depraving as compared with those elevating, are six hundred to one. The agencies for making the world worse compared with the agencies for making the world better, six hundred to one. But Moses in his song, chants, "How should one chase a thousand, and two put ten thousand to flight?" and in my text one ox-goad conquers six hundred uplifted battleaxes; and the day of universal victory is coming, unless the Bible be a fabrication, and eternity a myth, and the chariots of God are unwhipped on the golden streets, and the last regiment of the celestial hosts lies dead on the plains of heaven. With us, or without us, the work will be done. Oh, get into the ranks somewhere, armed somehow; you with a needle, you with a pen, you with a good book; you with a loaf of bread for the hungry; you with a vial of medicine for the sick; you with a pair of shoes for the barefooted; you with word of encouragement for the young man trying to get back from evil ways; you with some story of the Christ who came to heal the worst wounds and pardon the blackest guilt, and call the farthest wanderer home. I say to you as the watchman of London used to say at night to the householders before the time of street lamps came: "Hang out your light!" "Hang out your light!"

CURES OTHERS

Mrs. MARTHA JANE PRINGLE, of Chase, Jackson Co., W. Va., writes: "Having been a great sufferer for many years with nearly every disease my sex is heir to, I can now say I am well and hearty. Have done more hard work in the past year, and with more ease, than I have done for twelve years. Before consulting you I was the most wretched among women, unable to walk or sit up in bed, and now I owe my good health all to Dr. Pierce's Favorite Prescription (Golden Medical Discovery and 'Pellets'). I gained twelve pounds while using the first bottle of 'Prescription.' I send you my picture together with my most heartfelt thanks. To any one suffering as I did who wants to know the particulars of my cure and who will send a stamped envelope with name and address on, I will write particulars."

THIS DAY IN HISTORY

1738—George III, grandson of George II, born; died 1820.
 1782—John Eager Howard, soldier, famous at Cowpens, born in Baltimore county, Md.; died 1827.
 1788—Lord Edward Fitzgerald, Irish patriot, died in Dublin of wounds received when he was captured; born 1763.
 1802—Charles Manuel IV, king of Sardinia, abdicated in favor of his brother, Victor Emanuel I, and the liberal movement began. Victor proved too moderate for his liberal subjects and for many years controlled only a portion of his kingdom, and that under an English protectorate; the remainder being subject to France. In 1814 he was restored to full power, but established absolutism, and his reactionary policy led to his abdication in 1821 in favor of Charles Felix, another brother.
 1822—Louis Nicolas Davoust, French marshal noted in Bonaparte's wars, died in Paris; born 1770.
 1830—The French and Italians defeated the Austrians at Magenta.
 1880—Tornado in Nebraska. Bradshaw wrecked; 20 deaths, 21 injured.
 1894—Ex-Governor Charles Callis Van Zandt died at Berkshire, Mass.

DOLLAR WHEAT.

If wheat continues to advance as it has for the past two months, the dollar mark will be reached, before the new crop comes in. The price of wheat has so long been considered as a standard of values, that it is recognized as a barometer to business, and the man of average experience has long since realized the fact that a good price for wheat means general prosperity.

That times are improving throughout the country is generally admitted. Factories that have been idle in whole or in part, are running full time and labor finds steady employment. The price of wheat like the price of all necessities, is not questioned, when money circulates freely. The man who receives his wages regularly pays the twenty-five cents advance on flour without grumbling and finds at the end of the year that he has more money than when he was living on fifty cent wheat and working half the time.

With returning prosperity every avenue of business will throb with new life. The farmer will have more money to spend because his products command good prices. The mechanic finds himself in the same condition, because his labor is in good demand. The country has passed the stagnation period, and with a steady market and advancing prices, better times are already ushered in.

On account of a protective agreement, usually denounced as a trust, the large manufacturers of barbed wire and wire nails, have advanced the wages of employees 10 per cent.

Speaker Crisp, finds it necessary to publish a card declaring his allegiance to the 16 to 1 doctrine. The country will experience relief in consequence.

Recent reliable statistics show that 87 per cent. of the population of the United States over ten years old, can read and write.

THE TOWN TALK OF A DAY.

We have placed on sale 1000 new fans ranging in price from 5 cents to \$5 each. They are the greatest value in the fan line ever offered in this town. With us fans are only about half as much this year as last, perhaps because we buy for spot cash and get a much lower figure than time purchasers. Bort Bailey & Co.

In addition to our regular stock of laces, we have today added 300 new pieces to our line. This last lot comprises all the popular priced goods from 10 cents to \$1 yard. We are actually offering laces at 25 cents a yard that a month ago could not be had for less than 50 cents a yard. Bort Bailey & Co.

The difference in buying is easily noted by going into Bort, Bailey & Co's store. Their prices are at least 25 per cent lower than elsewhere and one very purchase of lace makes there is a saving of one-fourth. This is all due to the fact that they buy for spot cash and name the prices.

No difference how hot the days are, we are always busy. Yesterday while the thermometer registered almost 100 in the shade, we were as busy as we possibly could be. People appreciate good shoes now-a-days, especially when they get the best at 50 cents on the dollar. Becker & Woodruff.

People are coming from all directions to get some of the excellent footwear we are putting out at 50 cents on the dollar. People who were never in the town before are in our store almost every day and we make them happy. Becker & Woodruff.

There will be a jolly good time in store for all who join the excursion to Madison on June 6. The whole capital city is at work on schemes to amuse the visitors.

Just in the thickest of the trade now, never sold so many shoes at retail before in our lives. Such a tremendous sale. Shoes that the people

appreciate; the best there is, and they are going at 50 cents on the dollar of factory cost. Becker & Woodruff.

It don't take an orator to convince you that we have the best line of work shoes in the village. We have looked for wear and comfort. That's what you want. Twenty-five cents a pair more than you would have paid Sheepskin & Co. is money well invested when you come to wear them. We expect to make customers that will stay by us. Brown Bros. & Lincoln.

A PERSON contemplating buying a buggy always comes to us first. Do you know why? Because we make the best there is. We cannot begin to produce enough to accommodate every one wanting a buggy. The sales we lose in this way no doubt makes some others a very good business. Wisconsin Carriage Top Co.

We have one hundred buggies on our floor every day, and from all reports we are doing the buggy business of this town. We know we have the best buggy on earth, as we look through no black eyes to see them. F. A. Taylor.

To get a good shoe you must go where good shoes are kept. We have no shoes in our house but those that came direct from the factory and we're selling at prices below the regular price. We meet all comers. Lloyd & Son.

WHEN a person doubts our assertion that we are selling at 50 cents on the dollar, we tell them to go around, and if they can buy as good shoes for twice as much, not to come back, and invariably they return. Becker & Woodruff.

WE are selling child's and boys' suits; in fact, everything in the house at half price, and with each child's suit, we throw in a "buckboard." Don't buy any clothing until you see us. Frank Baack.

It may seem impossible that we are selling the best makes of shoes at 50 cents on the dollar of factory cost, but such is just exactly the case. We bought the stock right. Becker & Woodruff.

WE have more than four buggies to show a customer when he calls. We have 100 strong and having the best make on earth the people recognize this fact and buy. Its the Henney. F. A. Taylor.

Now is the time when you can get clothing for yourself and boys away below regular price. We are attempting to sell \$25.00 for \$12.50. A buckboard with every child's suit, Frank Baack.

OUR object is to sell. It's not how big a profit we make but how many pairs can we sell. We have nothing but the best, and we're selling in accordance with bankrupt prices. Lloyd & Son.

THE kind of buggies everybody is clamoring for is the kind we make—the best. That's why our trade has increased 100 per cent this season. Wisconsin Carriage Top Co.

No other soap has ever reached the requirements like Copco soap for a bath: it leaves the skin smoother and in better condition than any other soap made. Prentice & Evenson.

With every boy's suit we give away a "Buckboard" the handsomest thing there is for boys. Come and see. We sell the suit at just half price also. Frank Baack.

OUR ladies' black silk mitts are just a little better value than are to be found in the city at the prices we are offering them—15, 20 and 25 cents. T. P. Burns.

WE have shoes to fit all feet. No old, out-of-date stuff but the best makes there are, and at 50 cents on the dollar of the factory cost. Becker & Woodruff.

THERE is no better butter than Northern Dairy and we're selling it at 16 cents a pound, actually 2 cents a pound below any one else. Nolan Bros.

It's to your advantage to use Copco soap when taking a bath. No such soap has ever been produced for bathing purpose. Prentice & Evenson.

JUST a little better value in buggies than any one else in this town handles; and at prices as low as the inferior stock is sold. F. A. Taylor.

CHEESE headquarters is here. We handle Swiss, American, Edam, Brick, Pineapple, Old American, New American, Homemade cream. Dunn Bros.

THE pride of the Henney people is to have the best buggy and that they have it, can be proved by the many who ride in one of them. F. A. Taylor.

RATHER low for potatoes, especially the Burbank, but we bought them cheap and are letting them go at 65 cents a bushel. Nolan Bros.

A SOAP that has been tested and tried, given a thorough test before it was put on the market is Copco bathing soap. Prentice & Evenson.

PLENTY of butter 16 cents a pound, best there is made, actual saving of 2 cents a pound. Nolan Bros.

WE are selling excellent black silk mitts at 15, 20 and 25 cents, better value than to be found elsewhere in the city. T. P. Burns.

ALL kinds of cheese for sale here. Special prices prevail. We are endeavoring to work up a cheese trade. Dunn Bros.

BLACK silk mitts, a little better value than to be found elsewhere, 15, 20, and 25 cents at T. P. Burns.

THE finest Swiss cheese ever offered for sale, is now in hand at Dunn Bros.

GIRL wanted for general housework, 407 Court street. German preferred.

"We have increased our business 100 per cent this season," said Fred Van Dewater, of the Wisconsin Carriage

Top Co. this morning. "We could sell many more buggies had we the facilities for producing; we miss a good many sales, by not being able to put out at the required time; right now we have fifty orders on our books which should have been delivered a week ago."

WE have a first-class repair shop in connection with our store. We always take pains to please you. Brown Bros. & Lincoln.

JUST to show you how cheap we sell shoes, we would like to have you call in and examine. No old shopworn goods here; we have no time for them. Lloyd & Son.

PLAN to go to Madison with the Modern Woodmen on June 6.

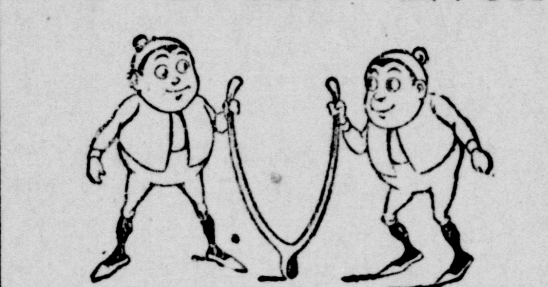

MONEY to loan. W. McLay, 25 Milwaukee avenue.

BATHING trunks 40 cents at Frank Baack's.

Southern Memorial Day.

Houston, Texas, June 4.—In accordance with a resolution adopted at the fifth annual convention of the United Confederate Veterans' association, which was held in this city a week ago, yesterday was observed as Confederate Memorial Day. Beginning with next year Confederate Memorial Day will be generally observed in every southern state in the same way that Memorial Day is celebrated in the north.

300 Pcs New Laces.

We have got today in our Lace Stock the Greatest Line of Laces ever brought to this city. In addition to our regular stock we have today added 300 new pieces to our line. This last lot comprises the popular priced goods from 10c to \$1 per yard.

The prices of these new laces will surprise you. We can offer you laces at 25c that a month ago you would have thought cheap at 50c.

Fans = =

We have just placed on sale 1000 New Fans ranging in price from 5c to \$5 each. Come in and see what values you can get in this line. The prices on Fans this summer are about half what they were last summer. For \$1 you can buy a fan that a year ago would have paid \$2 for. Many of these fine fans have the beautifully marked Dresden Sticks.

Parasols = =

For three days past we have had one of our large windows full of new parasols and the way the ladies are buying them prove that the styles and prices are correct. Come and select your summer parasol while the stock is complete.

THE COUNTY BOARD TO MEET TOMORROW

MAY ORDER THE INSURENCE COMPANIES SUED.

All Refuse to Pay the Policies on the Old County Buildings and a Legal Fight May Be the Result—Other News From About the Town.

The county board of supervisors will convene tomorrow afternoon at 2 o'clock for the purpose of organization. "I think Henry Tarrant of La Prairie, will be elected chairman," said County Clerk McIntyre this afternoon. "Yet, some new man may come up and take the chair. After the chairman is elected, I think the board will take a recess to give the chairman time to select the standing committees. I know of no special matters to come before the board at this time. However, the district attorney may be directed to commence proceedings to collect the insurance on the property destroyed on the county farm in Johnson. Nearly \$10,000 is involved, and all the companies concerned refuse to settle, claiming they are not liable."

A very creditable performance of "Ingomar, the Barbarian" was seen by a Janesville audience at the Myers Grand last evening when the John D'Ormond company made their first appearance. COURTS AND POLICE DO A BIG BUSINESS

JAY JONES WILL BE TRIED ON JUNE 18.

His Examination Was Concluded This Afternoon—Harry Daverkosen Was Found Insane and Sent Back to Mendota—Sheriff Appleby After Bank Robbers—Beggars Cornered.

Jay Jones, of Clinton, will be tried on the charge of embezzlement June 18, in the municipal court of Rock county. The examination of the defendant has been hanging fire in the municipal court for a long time, having been adjourned from time to time until today, when the final arguments were made by the attorneys this morning, and Judge Phelps held the defendant for trial, \$17.50 being the sum alleged to have been embezzled.

Harry Daverkosen, who has been causing so much trouble of late, was examined for the second time at the jail yesterday afternoon, and pronounced insane by Doctors Mills and Metcalf. He remained at the jail over night and was taken to Mendota this morning, by Under Sheriff Nelson, and it is hoped that the change will be for the better. The doctors say that the boy's mind has been unbalanced for some time past, and it is a wonder he hasn't done himself and others harm.

Walan and Price Guilty.

"Guilty," was the verdict of the jury before whom August Walan and William Price were tried in the municipal court yesterday afternoon on charge of assault and battery. Walan and Price, it will be remembered were arrested on last Saturday, charged with raising a disturbance up on the Stone farm in Fulton. The case was on trial all yesterday afternoon, and it was late in the evening when the jury returned with their verdict. The court, thereupon, sentenced Walan to pay a fine of \$10 and cost, or to be committed to the county jail for fifteen days. Price was more fortunate, his fine being placed at \$5 and costs, which he paid. Walan went to jail, thinking that boarding at the county expense for two weeks would be the easiest way for him to settle his account.

Given Five Days in Jail.

Edgerton is doing her share in contributing drunks to the county jail. The latest is Chris Christman, who was brought down by Marshal Springer this morning.

Of late there has been so many beggars about the streets that the police have been busy in looking after them. One man in particular was notified to leave the streets or he would be arrested and locked up. He has been begging for a number of years, and it is claimed that he is well off and owns a large farm. While his wife stays at home he is around the country claiming to be a helpless cripple. Saturday he was no fitter to leave the streets, but he said he had permission from the mayor. The police were not satisfied with this story and he was taken to the mayor's residence where the story was found to be untrue.

Were Bound For Waupun.

When the St. Paul train from Elkhorn arrived in the city this morning, two rough looking men, one a negro, alighted from the train handcuffed together. They were on their way from Elkhorn to the state prison at Waupun, where they will serve terms for burglary committed at Geneva.

William Ross, the negro, will serve two and one-half years, while his partner will stay for two years. They were in charge of Sheriff S. H. Hollister and remained at the jail here from 9:30 o'clock until the 12:45 train pulled out.

Sheriff Appleby is at Belvidere, the authorities having sent for him to help ferret out the Poplar Grove bank robbery. It was afterwards learned that the bank contained \$20,000 at the time of the attempted robbery, but before the thieves had a chance to act they were frightened away by fishermen who drove past the bank on their way to the lake. The two men now in jail are well known to the police, and it is expected before long that more arrests will follow.

The Gazette \$500 Prize Falls To The Fifth Ward Babe.

Hattie Belle Miles, daughter of Mrs. Miles 399 Center street, received the largest number of votes in The Gazette contest for the babies, and is therefore the winner of the \$500 worth of stock in the Rock County Building and Loan Association.

THE JOURNEY OF LIFE IS ENDED

Louis Wachlin.

The remains of Louis Wachlin were buried in Oak Hill this afternoon, the funeral services conducted by Rev. C. J. Koerner of St. Paul's church, being held at the home of August Wachlin, a son of the deceased, in the town of Harmony, at 2 o'clock. The services were attended by a large number of neighbors and friends of the family, many of whom accompanied the funeral party to the grave.

Funeral of Miss Larson.

The remains of Miss Carrie Larson were buried in Oak Hill this afternoon. Funeral services conducted by Rev. O. Kvaie were held at the Norwegian Lutheran church at 2 o'clock. The services were attended by a large number of sympathizing friends, many of whom accompanied the funeral party to the cemetery at the conclusion of the services at the church.

TELEPHONE CREW BEGIN WORK Long Distance Line Will Soon Be Completed They Say.

The work on the long distance telephone system was begun this morning and from now on the work will be pushed as rapidly as possible. Foreman Thomas Berry and a crew of fifteen men arrived in the city last evening from Milwaukee with a number of teams and the poles are being hauled along the route of the new line. The first work of the crew will be between this city and Whitewater. The list of telephone subscribers is increasing every day and Manager Willis predicts that this city will soon distance Madison in the number of 'phones in use. A list of the latest subscribers is as follows.

FOOT CRUSHED BY HEAVY IRON

S. W. Searl Meets with an Accident at the Barb Wire Works.

S. W. Searl, who is employed at the Janesville Barb Wire Works, will nurse his right foot for some time to come, as the result of an accident last evening. Just before the closing hour a heavy piece of iron which he was handling fell, and struck him squarely on the right foot, crushing his toe in a painful manner. Dr. Judd was at once notified, and although the accident might have been worse, Mr. Searl will not forget it for a day or two at least.

B. M. A. INITIATION REDUCED

Hereafter It Will Be \$2 Instead of \$5—Many New Members in Prospect.

The by-laws of the Janesville Business Men's association were amended at last night's meeting, reducing the initiation fee from five dollars to two dollars. New members may now be elected by a majority vote of the board of directors instead of being balloted upon by all the members. Thirty new members were announced as ready to join and the meeting adjourned to meet again on June 10.

GOOD TIME TO TALK CELEBRATION

"Many Citizens" Can Now Come Forward with a Call, if They Wish.

Now is an opportune time for "Many Citizens to publish a call for a patriotic meeting, having in view the proper celebration of the Fourth of July. If the people of Rock county are not to be entertained in Janesville on that day they will go to some other place to celebrate.

NEWS OF WISCONSIN IN BRIEF.

A CLASS of seventeen pupils graduated from the Evansville high school Saturday. E. J. Ballard had offered a gold watch at the beginning of the school year to the pupil who should have the highest standing. The examination papers gave Ina M. Gillies and Grace B. Colton the same figure and a few citizens duplicated the Ballard gift so that each received the same recognition.

THE money paid by the Rev. Mr. Ranton to Mr. Pratt of Whitewater, to settle a breach of the peace has been refunded by business men of the city. The evangelist has made public apology for his act which he said was committed because he was goaded beyond endurance by the language of Mr. Pratt.

THE state treasury receipts from peddlers' licenses for the month of May were \$8,395. The receipts for the same month last year were \$5,145.

CAN GET THE MONEY FOR THE BIG PICNIC

MEMBERS OF FLORENCE CAMP MUCH ENCOURAGED.

Cash Will Be Forthcoming When Needed and the Delegates Who Passed Through Here Were Favorable To This City—Concordia Society To Go To The Sangerfest.

Janesville men and women will make a strong effort in Madison this week to secure the holding of the next annual picnic in this city. The members who have the matter in charge claim that the necessary funds can be raised when needed, and that this city is better prepared to accommodate the large body that many other places where the picnic has been held. Most all the larger cities in the district have been favored, and that it is no more than right that Janesville be selected at this time. Elgin, Rockford, Sycamore, Beloit and Madison have thus been favored. Janesville is as well prepared to accommodate the mass as any. The picnic will draw together from 25,000 to 40,000 people, who will remain for one or two days.

Members of Florence Camp are straining every nerve to get a good turn out from Janesville, as that would carry much weight with the delegates in securing the annual gathering.

"I talked with a great many of the delegates that went through yesterday," said one of the local hustlers today, "and they all seem to feel favorable to Janesville as the next meeting place. We want five hundred people to go with us on our special train" he continued. "It might be well to let the people know that all who desire to go will save themselves much trouble by buying their tickets of the ticket committee as none will be sold at the depot. Of course tickets can be had at the train, as we will have men selling them that morning, but it would save much trouble all around if people would buy them in advance. The fare is only \$1.19 and there will be good time for all who go. I think the prospects for getting the picnic are excellent, but in the meantime every member of the camp is sawing wood."

At the monthly meeting of the Concordia Society held last evening at their rooms, arrangements were made to attend the Gaw Sangerfest, which will be held at Madison July 14. The singers of the society and their friends will go, so a special train will be chartered. A number from smaller towns will attend, and over two hundred active singers will take part. The meeting was an interesting one, and was presided over by President A. W. Bauman, while Secretary L. Richter kept the records. An arrangement committee, consisting of F. Kothmann, C. Hermann and C. W. Wisch was appointed and a private picnic was decided upon, to be given at Crystal Springs June 23.

SILK FABRICS.

Embroidered Grass Cloth—Satin Duchesse, Jet and Insertion.

Some of the prettiest materials have small broken checks interwoven with silk; others show a roughish surface, reminding one of granite from which they take their name of granites. These are woven in two colors and make most walking dresses. Crepons of all colors will reign supreme, a crepon foulard being the latest arrival of its kind, very light and pretty and printed with white designs on a dark blue, purple or dark brown ground.

Openwork embroidered grass cloth is one of the materials to be very largely used in the coming season. Sleeves and bodices will be draped with it, and, in some instances, skirts partly veiled with it.

For warm weather dancing gowns finely plaited mousseline de soie is much worn, with white jet beads on the outside of each plait. Many gowns are also made with innumerable bands of lace insertion, not only dresses meant for evening wear, but those of wash goods or thin silks for the daytime.

Embroidered tulle and jet are the characteristics of those airy trifles which go by the name of summer wraps. These capes

TAFFETA TOILET.

come scarcely to the waist, and their principal feature is the collarette, which is made very voluminous and is more or less adorned with flowers.

Satin duchesse is the silk fabric of the season, of which are made all the fashionable capes which are meant for cool days. They are much rippled and have an interlining of crinoline. The outside of each fold is ornamented with a motif of jet, while around the neck is an immense ruche of the satin, which has at the back a large butterfly knot.

Buttons of all sizes are extremely fashionable, and the bigger they are the better. Cut steel, pearl and jeweled ones are most worn.

The illustration shows a gown of ocean blue taffeta combined with pale yellow green faille. The taffeta skirt is cut with godets and is adorned with long motifs of beads of the fashionable "moonlight" tint. The short corsage has a plastron of faille crossed by strings of beads. The draped collar is fastened by a brooch of dead gold. A wide faille collar covers the shoulders and is embroidered with a design in beads. The sleeves have two balloon puffs of taffeta and a deep cuff of faille.

MILLINERY NOTES.

Napoleonic Three Cornered Hats, Styles of Fans and Trimmings.

Width of headgear being now essential to fashion, the three cornered hat of the days of picturesque living is again brought to the front, and though now worn with a difference it still retains much of its becomingness. Straw takes the place of old world felt or velvet, and flowers, lace and ribbons enhance its charms where an edging of gold lace, or at utmost a single feather (when for riding costume), was the sole decoration allotted to the original ancestors of the present chapeau. These trimmings, of course, to a large extent, take from the individual character of the shape, though they cannot altogether destroy its very becoming outline. It is, of

LARGE HAT.

course, unnecessary to state that the principal difference, to which all others are trifles, is that the triangular hat is now confined to women's wear, while originally it was a masculine habilliment.

All sorts of hat shapes are worn, large and small, but the toque has the preference perhaps for young girls. These toques are of colored straw, often with a crown of a different tint. Large hats are trimmed with immense bows of glace taffeta, placed near the hair at the back, the front trimming consisting of flowers having a changeable effect.

Fans to be carried out of doors should be of some dark color or black, black moire ones being particularly liked. For evening use, however, delicate and brilliant colors are employed, lace, gauze and feathers being the materials or tulle decorated with spangles.

The shaped pieces of passementerie, such as motifs, collars, figaros and plastrons, are wonderfully rich and beautiful this season. Light and heavy lace, mock jewels, pearls, spangles and beads of all tints and silk and metal embroidery are all pressed into the service, with the result that the trimming counters of the large shops look like Aladdin's cave.

A sketch is given of a large bonnet hat of rice straw. The wide brim is entirely lined with puffed mousseline de soie. Clusters of roses are placed at the side and back and under the brim, and a large bow of changeable taffeta finishes the decoration.

History of the Wedding Ring.

A long time ago the wedding ring was worn on the forefinger, and was thickly studded with precious stones. People who have seen the old pictures of the Madonna in Rome will remember that in one or two of them there is a glistening ring on the forefinger of her right hand, but with Christianity came the wearing of the wedding ring on the third finger rather than on the first. The old story of there being a vein that runs from that finger to the heart is nonsense. Its use originated in this way: The priest first put it on the thumb, saying: "In the name of the Father"; on the forefinger, adding, "In the name of the Son"; on the second finger, repeating, "In the name of the Holy Ghost"; and on the third finger, ending with "Amen," and there it staid.

Old Times and Now.

Here is just a feather to show which way the wind blows. Twenty-five years ago the practical application of electricity was unknown. To-day untold millions are invested in electrical machinery and steam is creeping out of sight to make way for harnessed lightning. If our great-grandfathers were to make an excursion of a couple of weeks to their old homes they would grow so dizzy that they would hardly be able to find their way back to heaven.

Inconsolable.

Lena—Are you going over to try to console the young widow?
Belle—No, it's no use. Her husband fixed his property so she would lose it if she married again.—Town Topics.

Its Beauties.

She carried her new dress away.
But, ah, my heart it grieves
To tell she had to hire a dray
To carry home the sleeves.
—Albany Herald.

JUSTIFIABLE REMONSTRANCE.

Father—I want you to understand that five thousand dollars is all my daughter will ever get.

Suitor—But, my dear sir, before you make this decision final please scrutinize your daughter's face more closely.
—Fliegende Blaetter.

Surprised, But Self-Possessed.

"O, George!"
"Laura, dearest! I'm so—"
"Stop where you are, George! I'm ever so glad to see you, of course, but I will not have my sleeves rumpled!"—Chicago Tribune.

A Bow-Wow Question.

"Suppose," said little Mabel, the other day, "that our pug dog should try to follow his nose, would he run down his throat or would he just turn a back somersault?"—Puck.

He Reminded Her.

Mr. Quiggs—Your husband reminds me of some one.
Mrs. Neighbors—He reminds me of his mother every time the cooking doesn't suit him.—Philadelphia Record

Where He Missed It

"And, papa, what did grandfather do for his country?"

"Nothing whatever, my son. He was a member of congress!"—Atlanta Constitution.

A Rise in Cotton.

"Thank the Lord," said the farmer, "cotton's gone up at last!"

"You don't say!"
"Yes; yonder goes ten bales in a cyclone!"—Atlanta Constitution.

Forest Fires in Michigan.

Picnning, Mich., June 4.—Fierce forest fires are raging near Highwood, Gladwin county. A strong westerly wind prevails and the flames are being swept to the eastward rapidly. Yesterday afternoon the telegraph poles between Highwood and Rhodes were burned down and no further reports can be received. Nothing can be known of the fire until it reaches Deep river or Standish in Arenac county.

THE SHAKERS' IDEA OF MEDICINE.

Nowadays when a man goes to his doctor, he is usually told that he has some unheard of disease with a long name, and when he leaves the office he does not know whether it is St. Vitus Dance or con-ump-tion that is gradually undermining his health.

It is therefore refreshing to talk with the Shakers, for their very simplicity commands confidence and respect, and we have the further satisfaction of knowing that they have devoted themselves to the study of disease and its cure for more than a hundred years.

The venerable old man whom the writer saw was only too good to discuss his pet subject.

He said that strange as it might seem, very few realized that three quarters of the most prevalent diseases were all attributable to faulty digestion.

He then went on to say that a child of average intelligence knows that putrid meat or decaying vegetables are poisonous, and must be avoided, and yet these same foods, if taken into the stomach in the freshest possible condition, soon decompose unless digested and absorbed. In such cases the resulting poisons enter the system, where aches and pains, weakness and debility soon follow as a natural consequence.

It was recognition of this that led the Shakers to devote their energies to the perfection of a product which would stimulate the digestive organs and assist them to perform their proper work.

The first symptom of disordered digestion, is loss of appetite, and the Shaker Digestive Cordial is wonderfully efficient in supplying any deficiency in this respect, at the same time it relieves all distress after eating. Furthermore, as explained by our venerable friend, it is absolutely harmless.

Better evidence of the Shaker's confidence in it could not be found, than in the fact that they have placed 10 cent sample bottles in the hands of all druggists, assured that if once tried it will produce such immediate and marked benefit that it will be continued.
